Список литературы

[1] *Bennett III, F. H.* Design of Decentralized Controllers for Self-Reconfigurable Modular Robots using Genetic Programming / F. H. Bennett III, E. Rieffel // The Second NASA/DoD workshop on Evolvable Hardware / ed. by J. Lohn, A. Stoica, D. Keymeulen ; Jet Propulsion Laboratory, California Institute of Technology. — Palo Alto, California : IEEE Computer Society, 2000. — 13-15 July. — P. 43–52.

[2] *Bradley, D.* Embryonics + Immunotronics: A Bio-Inspired Approach to Fault Tolerance / D. Bradley, C. Ortega-Sanchez, A. Tyrrell // The Second NASA/DoD workshop on Evolvable Hardware / ed. by J. Lohn, A. Stoica, D. Keymeulen ; Jet Propulsion Laboratory, California Institute of Technology. — Palo Alto, California : IEEE Computer Society, 2000. — 13-15 July. — P. 205–224.

[3] Building Multimodule Systems with Unlimited Evolvable Capacities from Modules with Limited Evolvable Capacities (MECs) / H. de Garis, A. Buller, T. Dob et al. // The Second NASA/DoD workshop on Evolvable Hardware / ed. by J. Lohn, A. Stoica, D. Keymeulen ; Jet Propulsion Laboratory, California Institute of Technology. — Palo Alto, California : IEEE Computer Society, 2000. — 13-15 July. — P. 225–234.

[4] *Coello, C.* Evolutionary Multiobjective Design of Combinational Logic Circuits / C. Coello, A. Aguirre, B. Buckles // The Second NASA/DoD workshop on Evolvable Hardware / ed. by J. Lohn, A. Stoica, D. Keymeulen ; Jet Propulsion Laboratory, California Institute of Technology. — Palo Alto, California : IEEE Computer Society, 2000. — 13-15 July. — P. 161–170.

[5] Evolution of Analog Circuits on Field Programmable Transistor Arrays / A. Stoica, D. Keymeulen, R. Zebulum et al. // The Second NASA/DoD workshop on Evolvable Hardware / ed. by J. Lohn, A. Stoica, D. Keymeulen ; Jet Propulsion Laboratory, California Institute of Technology. — Palo Alto, California : IEEE Computer Society, 2000. — 13-15 July. — P. 99–108.

[6] An Evolutionary Approach to GHz Digital Systems / N. Marston, E. Takahashi, M. Murakawa et al. // The Second NASA/DoD workshop on Evolvable Hardware / ed. by J. Lohn, A. Stoica, D. Keymeulen ; Jet Propulsion Laboratory, California Institute of Technology. — Palo Alto, California : IEEE Computer Society, 2000. — 13-15 July. — P. 125–131.

[7] *Flockton, S.* Behavior of a Building Block for Intrinsic Evolution of Analogue Signal Shaping and Filtering Circuits / S. Flockton, K. Sheehan // The Second NASA/DoD workshop on Evolvable Hardware / ed. by J. Lohn, A. Stoica, D. Keymeulen ; Jet Propulsion Laboratory, California Institute of Technology. — Palo Alto, California : IEEE Computer Society, 2000. — 13-15 July. — P. 117–124.

[8] Genetic Programming of Process Decomposition Strategies for Evolvable Hardware / H. Seok, K. Lee, B. Zhang et al. // The Second NASA/DoD workshop on Evolvable Hardware / ed. by J. Lohn, A. Stoica, D. Keymeulen ; Jet Propulsion Laboratory, California Institute of Technology. — Palo Alto, California : IEEE Computer Society, 2000. — 13-15 July. — P. 25–34.

[9] *Hollingworth, G.* Safe Intrinsic Evolution of Virtex Devices / G. Hollingworth, S. Smith, A. Tyrrell // The Second NASA/DoD workshop on Evolvable Hardware / ed. by J. Lohn, A. Stoica, D. Keymeulen ; Jet Propulsion Laboratory, California Institute of Technology. — Palo Alto, California : IEEE Computer Society, 2000. — 13-15 July. — P. 195–202.

[10] *Imamura, K.* Bidirectional Incremental Evolution in Extrinsic Evolvable Hardware / K. Imamura, J. Foster, A. Krings // The Second NASA/DoD workshop on Evolvable Hardware / ed. by J. Lohn, A. Stoica, D. Keymeulen ; Jet Propulsion Laboratory, California Institute of Technology. — Palo Alto, California : IEEE Computer Society, 2000. — 13-15 July. — P. 75–80.

[11] *Kalganova, T.* Bidirectional Incremental Evolution in Extrinsic Evolvable Hardware / T. Kalganova // The Second NASA/DoD workshop on Evolvable Hardware / ed. by J. Lohn, A. Stoica, D. Keymeulen ; Jet Propulsion Laboratory, California Institute of Technology. — Palo Alto, California : IEEE Computer Society, 2000. — 13-15 July. — P. 65–74.

[12] Kernel-based Pattern Recognition Hardware: Its Design Methodology using Evolved Truth Tables / M. Yasunaga, T. Nakamura, I. Yoshihara, J. Kim // The Second NASA/DoD workshop on Evolvable Hardware / ed. by J. Lohn, A. Stoica, D. Keymeulen ; Jet Propulsion Laboratory, California Institute of Technology. — Palo Alto, California : IEEE Computer Society, 2000. — 13-15 July. — P. 253–262.

[13] *Korkin, M.* Evolving Hardware on a Large Scale / M. Korkin, G. Fehr, G. Jeffery // The Second NASA/DoD workshop on Evolvable Hardware / ed. by J. Lohn, A. Stoica, D. Keymeulen ; Jet Propulsion Laboratory, California Institute of Technology. — Palo Alto, California : IEEE Computer Society, 2000. — 13-15 July. — P. 173–182.

[14] *Levi, D.* HereBoy: A Fast Evolutionary Algorithm / D. Levi // The Second NASA/DoD workshop on Evolvable Hardware / ed. by J. Lohn, A. Stoica, D. Keymeulen ; Jet Propulsion Laboratory, California Institute of Technology. — Palo Alto, California : IEEE Computer Society, 2000. — 13-15 July. — P. 17–24.

[15] *Milano, M.* A Clustering Genetic Algorithm for Actuator Optimization in Flow Control / M. Milano, P. Koumoutsakos // The Second NASA/DoD workshop on Evolvable Hardware / ed. by J. Lohn, A. Stoica, D. Keymeulen ; Jet Propulsion Laboratory, California Institute of Technology. — Palo Alto, California : IEEE Computer Society, 2000. — 13-15 July. — P. 263–270.

[16] Multiobjective Optimization Techniques: A Study of the Energy Minimization Method and Its Application to the Synthesis of Ota Amplifiers / M. Jonathan, R. Zebulum, M. Pacheco, M. Vellasco // The Second NASA/DoD workshop on Evolvable Hardware / ed. by J. Lohn, A. Stoica, D. Keymeulen ; Jet Propulsion Laboratory, California Institute of Technology. — Palo Alto, California : IEEE Computer Society, 2000. — 13-15 July. — P. 133–140.

[17] *Pollack, J.* The GOLEM Project: Evolving Hardware Bodies and Brains / J. Pollack, H. Lipson // The Second NASA/DoD workshop on Evolvable Hardware / ed. by J. Lohn, A. Stoica, D. Keymeulen ; Jet Propulsion Laboratory, California Institute of Technology. — Palo Alto, California : IEEE Computer Society, 2000. — 13-15 July. — P. 37–42.

[18] A Reconfigurable Platform for the Automatic Synthesis of Analog Circuits / R. Zebulum, H. Sinohara, M. Vellasco et al. // The Second NASA/DoD workshop on Evolvable Hardware / ed. by J. Lohn, A. Stoica, D. Keymeulen ; Jet Propulsion Laboratory, California Institute of Technology. — Palo Alto, California : IEEE Computer Society, 2000. — 13-15 July. — P. 91–98.

[19] Self-Repairable EPLDs: Design, Self-Repair, and Evaluation Methodology / C. Lee, D. Hall, M. Perkowski, D. Jun // The Second NASA/DoD workshop on Evolvable Hardware / ed. by J. Lohn, A. Stoica, D. Keymeulen ; Jet Propulsion Laboratory, California Institute of Technology. — Palo Alto, California : IEEE Computer Society, 2000. — 13-15 July. — P. 183–194.

[20] Size versus Robustness in Evolved Sorting Networks: Is Bigger Better? / J. Masner, J. Cavalieri, J. Frenzel, J. Foster // The Second NASA/DoD workshop on Evolvable Hardware / ed. by J. Lohn, A. Stoica, D. Keymeulen ; Jet Propulsion Laboratory, California Institute of Technology. — Palo Alto, California : IEEE Computer Society, 2000. — 13-15 July. — P. 81–87.

[21] Slate of the Art: An Evolving FPGA-based Board for Handwritten-Digit Recognition / R. Levy, S. Lepri, E. Sanchez et al. // The Second NASA/DoD workshop on Evolvable Hardware / ed. by J. Lohn, A. Stoica, D. Keymeulen ; Jet Propulsion Laboratory, California Institute of Technology. — Palo Alto, California : IEEE Computer Society, 2000. — 13-15 July. — P. 237–244.

[22] *Thompson, A.* Evolutionary Design of Single Electron Systems / A. Thompson, C. Wasshuber // The Second NASA/DoD workshop on Evolvable Hardware / ed. by J. Lohn, A. Stoica, D. Keymeulen ; Jet Propulsion Laboratory, California Institute of Technology. — Palo Alto, California : IEEE Computer Society, 2000. — 13-15 July. — P. 109–116.

[23] *Torresen, J.* Scalable Evolvable Hardware Applied to Road Image Recognition / J. Torresen // The Second NASA/DoD workshop on Evolvable Hardware / ed. by J. Lohn, A. Stoica, D. Keymeulen ; Jet Propulsion Laboratory, California Institute of Technology. — Palo Alto, California : IEEE Computer Society, 2000. — 13-15 July. — P. 245–252.

[24] Toward Self-Repairing and Self-Replicating Hardware: The Embryonics Approach / D. Mange, M. Sipper, A. Stauffer, G. Tempesti // The Second NASA/DoD workshop on Evolvable Hardware / ed. by J. Lohn, A. Stoica, D. Keymeulen ; Jet Propulsion Laboratory, California Institute of Technology. — Palo Alto, California : IEEE Computer Society, 2000. — 13-15 July. — P. 205–214.

[25] *Tufte, G.* Evolving an Adaptive Digital Filter / G. Tufte, P. Haddow // The Second NASA/DoD workshop on Evolvable Hardware / ed. by J. Lohn, A. Stoica, D. Keymeulen ; Jet Propulsion Laboratory, California Institute of Technology. — Palo Alto, California : IEEE Computer Society, 2000. — 13-15 July. — P. 143–150.

[26] Use of Conditional Developmental Operators and Free Variables in Automatically Synthesizing Generalized Circuits using Genetic Programming / J. R. Koza, J. Yu, M. A. Keane, W. Mydlowec // The Second NASA/DoD workshop on Evolvable Hardware / ed. by J. Lohn, A. Stoica, D. Keymeulen ; Jet Propulsion Laboratory, California Institute of Technology. — Palo Alto, California : IEEE Computer Society, 2000. — 13-15 July. — P. 5–16.

[27] *Vassilev, V.* Scalability Problems of Digital Circuit Evolution: Evolvability and Efficient Designs / V. Vassilev, J. Miller // The Second NASA/DoD workshop on Evolvable Hardware / ed. by J. Lohn, A. Stoica, D. Keymeulen ; Jet Propulsion Laboratory, California Institute of Technology. — Palo Alto, California : IEEE Computer Society, 2000. — 13-15 July. — P. 55–64.
