

## Список литературы

- [Nguyen et al.(2007)Nguyen, Ong, and Krasnogo] Q. H. Nguyen, Y. S. Ong, and N. Krasnogo. A study on the design issues of memetic algorithm. In Dipti Srinivasan and Lipo Wang, editors, *2007 IEEE Congress on Evolutionary Computation*, pages 2390–2397, Singapore, 25–28 September 2007. IEEE Computational Intelligence Society, IEEE Press. ISBN 1-4244-1340-0.
- [Cook and Congdon(2007)] Thomas Cook and Clare Bates Congdon. Preliminary results with gauguin, an evolutionary computation approach to creating art in the suprematist style. In Dipti Srinivasan and Lipo Wang, editors, *2007 IEEE Congress on Evolutionary Computation*, pages 4252–4257, Singapore, 25–28 September 2007. IEEE Computational Intelligence Society, IEEE Press. ISBN 1-4244-1340-0.
- [Goth et al.(2007)Goth, Tsai, Chiang, and Congdon] Thomas Goth, Chia-Ti Tsai, Fu-Tien Chiang, and Clare Bates Congdon. Initial results with episwarm, a swarm-based system for investigating genetic epistasis. In Dipti Srinivasan and Lipo Wang, editors, *2007 IEEE Congress on Evolutionary Computation*, pages 3855–3861, Singapore, 25–28 September 2007. IEEE Computational Intelligence Society, IEEE Press. ISBN 1-4244-1340-0.
- [Murata and Aoki(2007)] Tadahiko Murata and Yusuke Aoki. Developing control table for multiple agents using ga-based q-learning with neighboring crossover. In Dipti Srinivasan and Lipo Wang, editors, *2007 IEEE Congress on Evolutionary Computation*, pages 1462–1467, Singapore, 25–28 September 2007. IEEE Computational Intelligence Society, IEEE Press. ISBN 1-4244-1340-0.
- [Arakawa(2007)] Masao Arakawa. Range juggling for better convergence in genetic range genetic algorithms. In Dipti Srinivasan and Lipo Wang, editors, *2007 IEEE Congress on Evolutionary Computation*, pages 1359–1365, Singapore, 25–28 September 2007. IEEE Computational Intelligence Society, IEEE Press. ISBN 1-4244-1340-0.
