[AC03]   A. Aguirre and C. Coello, *Fitness landscape and evolutionary boolean synthesis using information theory concepts*, 2003 NASA/DoD Conference on Evolvable Hardware (Chicago, Illinois) (Jason Lohn, Ricardo Zebulum, James Steincamp, Didier Keymeulen, Adrian Stoica, and Michael I. Ferguson, eds.), NASA Ames Research Center, IEEE Computer Society, 9-11 July 2003, pp. 13–20.

[Agg03]   V. Aggarwal, *Evolving sinusoidal oscillators using genetic algorithms*, 2003 NASA/DoD Conference on Evolvable Hardware (Chicago, Illinois) (Jason Lohn, Ricardo Zebulum, James Steincamp, Didier Keymeulen, Adrian Stoica, and Michael I. Ferguson, eds.), NASA Ames Research Center, IEEE Computer Society, 9-11 July 2003, pp. 67–76.

[ARX⁺03]   A.Stoica, R.Zebulum, X.Guo, D.Keymeulen, V. Duong, and M.I.Ferguson, *Silicon validation of evolution-designed circuits*, 2003 NASA/DoD Conference on Evolvable Hardware (Chicago, Illinois) (Jason Lohn, Ricardo Zebulum, James Steincamp, Didier Keymeulen, Adrian Stoica, and Michael I. Ferguson, eds.), NASA Ames Research Center, IEEE Computer Society, 9-11 July 2003, pp. 21–25.

[AST⁺03]   J. F. Amaral, C. Santini, R. Tanscheit, M. Vellasco, M. Pacheco, and A. Mesquita, *Evolvable building blocks for analog fuzzy logic controllers*, 2003 NASA/DoD Conference on Evolvable Hardware (Chicago, Illinois) (Jason Lohn, Ricardo Zebulum, James Steincamp, Didier Keymeulen, Adrian Stoica, and Michael I. Ferguson, eds.), NASA Ames Research Center, IEEE Computer Society, 9-11 July 2003, pp. 101–110.

[BLVM03]   J. Botelho, B. Leonardo, P. Vieira, and A. Mesquita, *An experiment on nonlinear synthesis using evolutionary techniques based only on cmos transistors*, 2003 NASA/DoD Conference on Evolvable Hardware (Chicago, Illinois) (Jason Lohn, Ricardo Zebulum, James Steincamp, Didier Keymeulen, Adrian Stoica, and Michael I. Ferguson, eds.), NASA Ames Research Center, IEEE Computer Society, 9-11 July 2003, pp. 50–58.

[CALA03]   C. Coello, E. Alba, G. Luque, and A. Aguirre, *Comparing different serial and parallel heuristics to design combinatorial logic circuits*, 2003 NASA/DoD Conference on Evolvable Hardware (Chicago, Illinois) (Jason Lohn, Ricardo Zebulum, James Steincamp, Didier Keymeulen, Adrian Stoica, and Michael I. Ferguson, eds.), NASA Ames Research Center, IEEE Computer Society, 9-11 July 2003, pp. 3–12.

[DDdG03]   J. Dinerstein, N. Dinerstein, and H. de Garis, *Automatic multi-module neural network evolution in an artificial brain*, 2003 NASA/DoD Conference on Evolvable Hardware (Chicago, Illinois) (Jason Lohn, Ricardo Zebulum, James Steincamp, Didier Keymeulen, Adrian Stoica, and Michael I. Ferguson, eds.), NASA Ames Research Center, IEEE Computer Society, 9-11 July 2003, pp. 273–276.

[Gal03]   J. Gallagher, *The once and future anaolg alternative: Evolvable hardware and analog computation*, 2003 NASA/DoD Conference on Evolvable Hardware (Chicago, Illinois) (Jason Lohn, Ricardo Zebulum, James Steincamp, Didier Keymeulen, Adrian Stoica, and Michael I. Ferguson, eds.), NASA Ames Research Center, IEEE Computer Society, 9-11 July 2003, pp. 43–49.

[GF03]   D. Gwaltney and M. I. Ferguson, *Intrinsic hardware evolution for the design and reconfiguration of analog speed controllers for a dc motor*, 2003 NASA/DoD Conference on Evolvable Hardware (Chicago, Illinois) (Jason Lohn, Ricardo Zebulum, James Steincamp, Didier Keymeulen, Adrian Stoica, and Michael I. Ferguson, eds.), NASA Ames Research Center, IEEE Computer Society, 9-11 July 2003, pp. 81–90.

[GRA03]   G. Greenwood, E. Ramsden, and Saima Ahmed, *An empirical comparison of evolutionary algorithms for evolvable hardware with minimum time-to-reconfigure requirements*, 2003 NASA/DoD Conference on Evolvable Hardware (Chicago, Illinois) (Jason Lohn, Ricardo Zebulum, James Steincamp, Didier Keymeulen, Adrian Stoica, and Michael I. Ferguson, eds.), NASA Ames Research Center, IEEE Computer Society, 9-11 July 2003, pp. 59–66.

[GT03]   M. Garvie and A. Thompson, *Evolution of combinational and sequential on-line self-diagnosing hardware*, 2003 NASA/DoD Conference on Evolvable Hardware (Chicago, Illinois) (Jason Lohn, Ricardo Zebulum, James Steincamp, Didier Keymeulen, Adrian Stoica, and Michael I. Ferguson, eds.), NASA Ames Research Center, IEEE Computer Society, 9-11 July 2003, pp. 167–173.

[HM03]   S. Harding and J. F. Miller, *A scalable platform for intrinsic hardware and in materio evolution*, 2003 NASA/DoD Conference on Evolvable Hardware (Chicago, Illinois) (Jason Lohn, Ricardo Zebulum, James Steincamp, Didier Keymeulen, Adrian Stoica, and Michael I. Ferguson, eds.), NASA Ames Research Center, IEEE Computer Society, 9-11 July 2003, pp. 221–224.

[JCT03]   A. H. Jackson, R. Canham, and A. M. Tyrrell, *Robot fault-tolerance using and embryonic array*, 2003 NASA/DoD Conference on Evolvable Hardware (Chicago, Illinois) (Jason Lohn, Ricardo Zebulum, James Steincamp, Didier Keymeulen, Adrian Stoica, and Michael I. Ferguson, eds.), NASA Ames Research Center, IEEE Computer Society, 9-11 July 2003, pp. 91–100.

[KG03]   G. R. Kramer and J.C. Gallagher, *Improvements to the *cga enabling online intrinsic evolution in compact eh devices*, 2003 NASA/DoD Conference on Evolvable Hardware (Chicago, Illinois) (Jason Lohn, Ricardo Zebulum, James Steincamp, Didier Keymeulen, Adrian Stoica, and Michael I. Ferguson, eds.), NASA Ames Research Center, IEEE Computer Society, 9-11 July 2003, pp. 225–234.

[KKS03]   J. Koza, M. Keane, and M. Streeter, *the importance of reuse and development in evolvable hardware*, 2003 NASA/DoD Conference on Evolvable Hardware (Chicago, Illinois) (Jason Lohn, Ricardo Zebulum, James Steincamp, Didier Keymeulen, Adrian Stoica, and Michael I. Ferguson, eds.), NASA Ames Research Center, IEEE Computer Society, 9-11 July 2003, pp. 33–42.

[KLMI03]   Shotaro Kamio, Hongwei Liu, Hideyuki Mitsuhasi, and Hitoshi Iba, *Researches on ingeniously behaving agents*, 2003 NASA/DoD Conference on Evolvable Hardware (Chicago, Illinois) (Jason Lohn, Ricardo Zebulum, James Steincamp, Didier Keymeulen, Adrian Stoica, and Michael I. Ferguson, eds.), NASA Ames Research Center, IEEE Computer Society, 9-11 July 2003, pp. 208–220.

[Lou03]   S. J. Louis, *Learning for evolutionary design*, 2003 NASA/DoD Conference on Evolvable Hardware (Chicago, Illinois) (Jason Lohn, Ricardo Zebulum, James Steincamp, Didier Keymeulen, Adrian Stoica, and Michael I. Ferguson, eds.), NASA Ames Research Center, IEEE Computer Society, 9-11 July 2003, pp. 17–21.

[PSMJB03] J. Plante, H. Shaw, L. Mickens, and C. Johnson-Be, *Overview of field programmable analog arrays as enabling technology for evolvable hardware for high reliability systems*, 2003 NASA/DoD Conference on Evolvable Hardware (Chicago, Illinois) (Jason Lohn, Ricardo Zebulum, James Steincamp, Didier Keymeulen, Adrian Stoica, and Michael I. Ferguson, eds.), NASA Ames Research Center, IEEE Computer Society, 9-11 July 2003, pp. 77–78.
