Список литературы

[Hanh(1994)] Mark S. Hanh. 1994. Simulating evolution in a kolmogorov predator-prey model with genetic extensions. In *Artificial Life at Stanford 1994*, pages 44–53, Stanford, California, 94305-3079 USA, Phone 415-329-1217 or 800-533-2670. Stanford Bookstore.

[Haynes et al.(1996)Haynes, Lau, and Sen] Thomas Haynes, Kit Lau, and Sandip Sen. 1996. Learning cases to compliment rules for conflict resolution in multiagent systems. In *Working Notes for the AAAI Symposium on Adaptation, Co-evolution and Learning in Multiagent Systems*, Stanford University, CA.

[Haynes and Sen(1995)] Thomas Haynes and Sandip Sen. 1995. Evolving behavioral strategies in predators and prey. In *IJCAI-95 Workshop on Adaptation and Learning in Multiagent Systems*, pages 32–37.

[Haynes and Sen(1996)] Thomas Haynes and Sandip Sen. 1996. Evolving behavioral strategies in predators and prey. In Gerhard Weiß and Sandip Sen, editors, *Adaptation and Learning in Multiagent Systems*, Lecture Notes in Artificial Intelligence. Springer Verlag, Berlin.

[Haynes et al.(1995a)Haynes, Sen, Schoenefeld, and Wainwright] Thomas Haynes, Sandip Sen, Dale Schoenefeld, and Roger Wainwright. 1995a. Evolving a team. In *Working Notes for the AAAI Symposium on Genetic Programming*, Cambridge, MA. AAAI.

[Haynes et al.(1995b)Haynes, Sen, Schoenefeld, and Wainwright] Thomas Haynes, Sandip Sen, Dale Schoenefeld, and Roger Wainwright. 1995b. Evolving multiagent coordination strategies with genetic programming. *Artificial Intelligence*. (submitted for review).

[Haynes et al.(1995c)Haynes, Wainwright, and Sen] Thomas Haynes, Roger Wainwright, and Sandip Sen. 1995c. Evolving cooperation strategies. In *Proceedings of the First International Conference on Multi–Agent Systems*, page 450, San Francisco, CA. MIT Press. (poster).

[Haynes et al.(1995d)Haynes, Wainwright, Sen, and Schoenefeld] Thomas Haynes, Roger Wainwright, Sandip Sen, and Dale Schoenefeld. 1995d. Strongly typed genetic programming in evolving cooperation strategies. In *Proceedings of the Sixth International Conference on Genetic Algorithms*, pages 271–278, San Francisco, CA. Morgan Kaufmann Publishers, Inc.

[Iba et al.(1993)Iba, de Garis, and Higuchi] H. Iba, H. de Garis, and T. Higuchi. 1993. Evolutionary learning of predatory behaviors based on structured classifiers. In *From Animals to Animats 2: Proceedings of the Second International Conference on Simulation of Adaptive Behavior*, volume 1. The MIT Press.

[Korf(1992)] Richard E. Korf. 1992. A simple solution to pursuit games. In *Working Papers of the 11th International Workshop on Distributed Artificial Intelligence*, pages 183–194.

[Levy and Rosenschein(1992)] Ran Levy and Jeffrey S. Rosenschein. 1992. A game theoretic approach to the pursuit problem. In *Working Papers of the 11th International Workshop on Distributed Artificial Intelligence*, pages 195–213.

[Maio and Rizzi(1995)] Dario Maio and Stefano Rizzi. 1995. Unsupervised multi-agent exploration of structured environments. In *Proceedings of the First International Conference on Multi–Agent Systems*, pages 269–275, San Francisco, CA. MIT Press.

[Manela and Campbell(1993)] Mauro Manela and J. A. Campbell. 1993. Designing good pursuit problems as testbeds for Distributed AI: a novel application of Genetic Algorithms. In *Fifth European Workshop on Modelling Autonomous Agents in a Multi-Agent World*, Neuchâtel, Switzerland.

[Miller and Cliff(1994)] Geoffrey F. Miller and Dave Cliff. 1994. Co-evolution of pursuit and evasion i: Biological and game-theoretic foundations. Technical Report CSRP311.

[Singh(1990)] Munindar P. Singh. 1990. The effect of agent control strategy on the performance of a DAI pursuit problem. In *Working Papers of the 10th International Workshop on Distributed Artificial Intelligence*.

[Smith(17th April 1991)] Mark Smith. 17th April 1991. Using massifvely-parallel supercomputers to model stochastic spatial predator-prey systems. Technical Report EPCC-TR91-06.

[Stephens and Merx(1990)] Larry M. Stephens and Matthias B. Merx. 1990. The effect of agent control strategy on the performance of a DAI pursuit problem. In *Proceedings of the 1990 Distributed AI Workshop*.

[Vidal and Durfee(1995)] José M. Vidal and Edmund H. Durfee. 1995. Recursive agent modeling using limited rationality. In *Proceedings of the First International Conference on Multi–Agent Systems*, pages 376–383, San Francisco, CA. MIT Press.
